OBJECTIVE

Motivated Computer Science graduate seeking an entry-level role in Networking, Cybersecurity, or Web Development, with practical experience in Java, React, AAA implementation, and network security concepts. Passionate about developing secure, scalable, and efficient solutions while continuously enhancing technical and also problem-solving skills to contribute effectively to organizational growth.

EDUCATION

Dhanalakshmi Srinivasan University

Trichy

Department of Cyber Security– CGPA: 8.9

Sep 2022 – May 2026

Sri Chaitanya Junior College

Nellore

Intermediate (MPC) – Percentage: 95.2

July 2020 – April 2022

Veda Vyasa English Medium High School

Nellore

Percentage: 89.5

Jun 2019 – March 2020

SKILLS SUMMARY

Languages: Java, HTML, CSS, React Basics

Tools & Technologies: Cisco Packet Tracer, Wireshark, MSWord

Soft Skills: Problem-Solving, Communication, Team Collaboration

Platforms: Jupyter Notebook, Visual Studio Code, Idle Python

PROJECTS

- **Network Tracking using Wireshark and Google maps:**

This project involves tracking network traffic using Wireshark to capture IP addresses and mapping their geolocations with Google Maps.

- **Built A Campus and Bank Network Using Cisco Packet Tracer:**

Designed and simulated secure bank and campus networks in Cisco Packet Tracer, enabling scalable, reliable communication across buildings and departments.

- **AAA Implementation with Device:**

Configured AAA with device hardening techniques to secure network devices against Unauthorized access and Brute force attacks.

- **Created A Signup and Login pages:**

Designed and developed responsive Sign-Up and Login pages using React, ensuring secure and user-friendly authentication workflows.

CERTIFICATIONS

- Offline Internship Completion Certificate from Inventive Institute of Technology on Networking.
- Online Internship Completion Certificate from Innovative Institute of Technology.
- Attended an online workshop on Cybersecurity by Thetechunique Academy.
- Successfully completed a 6-week NPTEL certification course in Ethical Hacking.
- I am currently going through the internship on Advanced Java at Anudip Foundations.
